FOR CHARITY.

One of the Largest Meetings in the History of the Organization.

NO THEORIES ARE ACCEPTED

By the Association, But Everything Must be Presented as the Result of Experience - No Vacant Chairs Found-Next Meeting at Washington, D. C.

cial Correspondence of Intelligencer. TOPEKA, Kas., May 20.—The great nvention of charities found Topeka her hotels in a state of confusion, but it was explained that they had not time to clean house after the deture of the Republican convention. ry likely the latter came in the al spirit of political meetings, with for their watchword, Great, then, is the contrast for this is a convention for peace. Every city is glad to open its doors to these workers for the betrepresented some of the best men of every state.

Fine Looking Body of Men.

It is a fine looking, intelligent, earnest of men with an increasing number of women. Every state is represented, though all states do not possess, as they should, boards of charity. When at the roll call of states, Cuba and Mexico representatives appeared, great was the enthusiasm. All day Friday delegates were arriving and trying to get located in the crowded hotels, thich do not afford the accommodation furnished by Wheeling, although Topeha and Wheeling are about the same in population. On Friday evening, the convention assembled in the splendid capitol building. Already three million dollars have been spent in this magni-neent structure, but it will be a lasting nument of beauty. Royal Address by the Governor.

The governor's address of welcom

was royal, and certainly sincere, for it is true that the whole city has vied in attentions to the association. This was followed by a reception in this state hall, where handsome western matrons assisted the governor's wife in receiving the convention. Pretty society belies urged everyone to partake of fine refreshments at the varlous tables, and every committee room was a scene of hospitality.

Work began in earnest on Saturday morning, with discussions concerning the best care of the insane and the big "carrivansary system" of hundreds to a building was utterly condemned and the helpful system of cottage plans, with fifty to a building heartily com-

Will Accept No Theories.

No theories are accepted by this as-sociation. Everything is the result of experience. Whether the state or county should care for the insane was a divided question, experience showing good reasons for each. Section meetings were held in the afternoon, so that those connected with reformatories might discuss questions concerning the st good of their institutions. vacant chairs are found at these meetngs, and the many questions asked show how serious are the problems in aring for the unfortunate. A visit to the state hospital for insane in the city of Topeka, reflected no credit upon the authorities, for instead of being a place of refuge and cure, as it should be, its crowded condition proves it to be what much larger hospitals of this class are, imply a place of detention.

Every State Was Represented.

At 5 p. m. the important committee choosing the next place of meeting, convened in the pariors of the Copeland Hotel. Every state seemed to be represented and such an earnest contest followed. From the hearty infr m various cities, one would think the "Convention of Organized Charitis" was a party of millionaires, whose coming would bring every prosperity to

quest representatives, loaded with papers from mayors and boards.

Struggle Between the Cities.

Milwaukee's two citizens pressed her claims in glowing terms. Cleveland yied with her; Columbus seemed the Distant Seattle presented all its beauties and its need of the charity association. The chamber of dial reasons for coming there, and it hung in its favor, but the three repre-sentatives of Washington, D. C., were most eloquent in their plea. The citiains of the capitol urged the need the conference and finally the elo-mence of Mrs. Barrett, of Virginia, won the day and Washington will be the Mecca for the conference in 1901. Preached in the Various Churches.

Many members of the conference preached in the various churches unday, but the conference sermon by Rev. F. H. W. Wines, L.L. D., of Washgton, D. C., was the official church and a fine sermon, dealing with the mestions of sociology, was their reward. In the evening, the conference for the first time in its history, held a boy's reform school is a part of the On Tuesday the Indian hool at Lawrence, will serve lunch to

WHEELING WHOLESALE MARKETS. Weekly Change of Quotations in all

Lines of Local Trade. Office of the Intelligencer,

Wheeling, May 22. In the Wheeling wholesale markets there are few changes. Sugar has advanced. In fruits and produce general trade is good, but so much stock is arriving that sales are more in buyers' fayor than sellers'. The supply of strawberries has not been equal to the demand, and they have been bringing good prices. Two cars are booked for to-day, with some home grown, which means lower prices. New potatoes are lower, with better demand. New cabbage in good demand, with light supply.

There has been no change in the egg

market for the past two weeks. Real fresh stock is short. Butter demand is light, with no change in prices. Live chickens are wanted, but for turkeys, ducks or geese, little or no demand.

Sugar certificates occupied the attention of the exchange to-day to the practical exclusion of other considerations. The apathy and the attitude of the market seemed to spurt professional traders to a search for some medium operation and they gave themselves up to a speculative revel in Sugar. The movement of the stock was highly characteristic. That is to say, the fluctuations were frequent, violent and erratic and there was no news to account for them beyond the airlest and most unsubstantial rumors. Also it was evident that the enormous business being done would necessitate very little clerical labor on the transfer books of the company. Probably the large majority of the contracts made, either for sale or for purchase, were closed out before the end of the day, the profit or loss being accepted by the trader. The stocks' extreme range was 7% points and the net gain was 4%. In the opening dealings the price went down, in continuation of yesterday's depression. After declining 1% the advance began and it had not proceeded far bafore the shorts began to manifest distress and rushed to cover, pushing the price up to the maximum. The squeeze was not relaxed until the demand from the shorts was pretty well satisfied. The price then began to fall back on light transactions and without any evidence of support. The bears became weary after their punishment and refrained from aggressive selling. In spite of the aunouncement made on official authority just before the close that the Sugar trade war had not been settled and was not likely to be. The leading industrials had sold in sympathy with London and there was a mid-day rally when Sugar shot upward and Chicago & Northwestern was marked up 5½. The latter movement was without explanation beyond the series, the trading were losted interest. The speculative markets for food stuf

BOSTON—The wool market continues dull and sales are confined to small lots. The volume of business is low and prices are largely nominal. Compared with a few weeks ago, the market is weaker and there would be quite free sellers at prices that some of the manufacturers were then inclined to bid, but the buyers have also reduced their ideas, and the market is as far apart as ever. Territory wools are slow, and where 55c was asked a few weeks ago for fine medium and fine, 50c and 53c is nearer the price to-day. Fleece wools are slow with prices nominal. The demand for Australian is slow at nominal prices.
